## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of figure 4 in the reply filed on October 21<sup>st</sup>, 2004 is acknowledged. The traversal is on the ground(s) that claims 5, 7, 12, 15, 19, 21 and 27 are both generic and readable on the elected species. In reference to claims 5, 12 and 15 the applicant has cancelled them in the preliminary amendment so there are moot in view of the current office action.

In reference to claims 7, 19, 21, and 27, the examiner agrees that these claims are generic and do read on the elected species.

The requirement is still deemed proper and is therefore made FINAL.

### ***Reason for Allowance***

The following is an examiner's statement of reasons for allowance: Claims 1, 3, 4, 6, 7 through 11, 13, 14, 16 through 23 and 25 through 30 (re-numbered claims 1 through 25) of application number 10/762904 are allowable over the prior art of record in that the heat sink for convection cooling in horizontal applications comprises a plurality of spaced apart cooling fins, wherein each cooling fin has a center portion and opposing outer portions; and an angled base supporting the center portions of the cooling fins, wherein the outer portions of the cooling fins extend beyond an outer edge of the base, wherein the angled base comprises a central region for receiving a surface to be cooled and opposing end regions adjacent the central region and wherein the opposing end regions are tapered.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
